ADDITIONAL INFORMATION

This ex rental fleet sweeper is in excellent condition. The sweeper has few hours on the clock and has been well maintained. It would make an excellent workshop or warehouse sweeper. The sweeper features a high lift dumper on the back so debris is simple to empty and it's very easy to operate. This sweeper is fully electric and controls are accessible by the operator sitting in the seat. Other features include solid non marking tyres, a rechargeable battery and working power cord, an efficient turning circle, a 4 m² dust filter and a pivoting side brush that automatically avoids obstacles. Truly effortless cleaning power! Components, brushes and filters are easily accessible and can be interchanged in a matter of minutes. Simple to maintain, a breeze to operate and powerful cleaning all whilst comfortably sitting in a seat. Approx 2013 Model - Hour meter reading photo was taken 11.05.2015. Suresweep sweepers are made by Stolszenberg, the biggest manufacturer of Sweepers in the world.
