WAREHOUSE MOVERS & LIFTS - ORDER PICKERS NEW - SALE

Date Listed 28 Apr 2023 Reference OPS15

Power TypeBattery ElectricLift Capacity1,500 kg(3,307 lb)Mast TypeTriplex (3 Stage)Maximum Lift Height9,000 mm(354 in)Tyre TypePolyurethane / Vulkollan

Machine Height (Mast Lowered) 3,750 mm(148 in)

Machine Features Man up

Overhead Guard

ADDITIONAL INFORMATION

• Low gravity center provides good stability. • Advanced electric steering technology(EPS) is humanized designed, with automatic reset , height display and automatic deceleration at high lifting level.

• Finger tip control via joystick, Stepless speed control for driving, lifting and lowering speed is adjustable. • Buffer oil cylinder: the oil cylinder will automatic decelerate when off ground 500mm, to prevent impact and lower noises. • The mast and the frame are dividable and exchangeable. • Low battery protection setting prolongs the battery use time. • AC motor eliminates replacement of the carbon brush, provides good ramp starting performance and regenerative breaking functions. • Sideway battery is convenient for exchanging and maintaining. • The mast material is the special type imported from Germany. • The truck can automatic decelerate when quick turning. • High performance multi-function instrument has LED light and display function. LED indicators include battery indicator, fault indicator, Electric thermometer indicator, pedal indicator and hand break indicator. • Multi function display, include battery status, performance, working hour, accelerator, speed, the wheel position and traveling direction. • Press right and left keys to switch for different grades: high, normal, low, and lowest.
